

"Where Your Proposals Become A Reality"

Sci-tech is an engineering and educational service company. We will work with the engineer or student to help make the project or product workable and, in some cases marketable. This means developing a working model or mock-up of the project or parts.

With over four (4) decades in the machine-tool industry and teaching profession, we are sure we can solve most of the problems in transforming the two-dimensional drawing to the REAL thing....

For further information please contact us at:

[info@sci-techlabs.com](mailto:info@sci-techlabs.com)

718-343-9692 or 718-343-6805.

## Our Expertise includes:

- Research and Development
- Proto-type Development
- Engineering Services and Tool Design
- New Product Design / Models
- Parts Duplication
- Short runs
- Tool and Die Making
- Mold making
- Educational Product Development
- Student Science Projects
- Math Tutoring for SATs
- EDM availability

## Who uses Sci-Tech Labs services?

- Engineers
- Inventors
- Science and Math Students
- Medical Industry
- Physicists
- Auto Parts Manufacturers
- Model-makers
- Plastic Companies
- Extrusion Companies

"Where Your Proposals Become A Reality"

Sci-tech is an engineering and educational service company. We will work with the engineer or student to help make the project or product workable and, in some cases marketable. This means developing a working model or mock-up of the project or parts.

With over four (4) decades of experience combined with teaching in the machine tool industry, we are sure we can solve most of the problems in getting the two-dimensional drawing to the REAL thing....
